noralized, and are still in that con

which prominent gentlemen on both which prominent gentlemen on both sides have given to it. The democrats entered the fight against the Force bill determined to take advantage of any opportunity that might offer to defeat it, and they were fortunate enough not only to succeed in having the most obnoxtous measure ever before Congressibility and the paper permanents.

It is hoped that the financial bill may be disposed of in the Senate in a few days, and it will be, u less the republicans can succeed in whipping enough of their Senators into agreeing to take up the Force bill again, or the anti-silver republicans, who or the anti-silver republicans, who is are now hatching up some mischief, unless all signs fail, shall resort to stillibustering to prevent a vote. If it passes the Senate Speaker Reed and Mr. Harrison will have a hard time to stop it in the House, and it is extremely doubtful whether Mr. Harrison, in view of his candidates for a renomination, will dare didacy for a renomination, will dare to veto it, as ne would otherwise like to do. Democrats are feeling very

jubilant over their victory, as they have a right to do; it was fairly earned by vigilance and constant attendance upon the sessions of the Senate, no matter what the inconvenience might be to individual How the mighty have fallen! Ex-

Senator Mahone, who once posed as the Czar of the United States Senate, is now dividing his time between poker playing and lobbying. He has a piece of "made" ground, which he bought for a song, that he wants to sell to the Government at an exorbi-tant price as a site for the new dant price as a site for the new Government Printing office, and he is lobbying to carry out his design. He also has another scheme that has "millions in it," provided the Force bill ever becomes a law, in the shape of a patent ballot box, ostensibly owned by his son, which he calculates to sell to the Government, to be used in every voting precinct in the used in every voting precinct in the United States. He will have to work fast, as after the fourth of next March the name of Mahone will be all that will be needed to kill any measure that gets before the democratic House. The administration seems to be making as big a muss of Indian matters as it has of everything el e it has touched. A resolution, offered by Democratic Model and Management

this is not conceded by its opponents, who are numerous and energetic.

At last the correspondence in the Behring Sea matter, which was asked Behring Sea matter, which was asked the last session, has for months ago at the last session, has the near future. apply his vigorous policy. The matter most be settled between now and Spring. He must adopt a more vigorous policy or else back down al-

ogether.
The democratic members of the Senate Census committee have made a minority report on the Apportionment bill, favoring an amendment giving Arkansas, Minnesota and New York one member each additional, because of the large fraction each of those States has after dividing the population by the number required per Representative. This, if adopted, would make the total Membership of the House 359.

The two new Senators from Idaho, who cast their maiden votes to lay aside the Force bill, have according to custom drawn lots to decide upon their respective term. Mr. Shoup got the oig term, which expires March 4, 1895, and Mr. McConnell the short term, which ends with the pres It never looked more like an extra sion of the Fifty-second Congress han it does ow.

Dr. Hale's Household Ointment Is the finest remedy in the world It alsolutely cures Cattarrh. It cures Neuralgia and Rheumatism. Cures Piles like magic. Cures Salt Rheum in the most soothing manner. Cures Inflamed and Granulated Eyelids. Cures Coughs and Colds. Can be taken internally. Cuts, bruises,

COUNTY CULLINGS,

Culled by Our Correspondents Leftwich.

Leftwich.

It is said by old people that the first twelve days in the year govern the quite wet, the spring months will be quite wet, the spring months will be dry, also of the early part of the summer; August will be wet and perhaps autumn. We do not profess to be a prophet or a foreteller of future events but what we have stated above corresponds with the views of those who have taken notice of the first twelve days of the year. We have had beautiful weather up to the present time; fine for saving pork; quite different from last season. Indications are favorable for a fine yield of fruit, as we had light nights during Christmas week which is said to be a true sign of a good fruit year.

We notice an article in last weeks Herald from John Moore, Jr., addressed to the patrons and school directors of public schools, which has the proper ring about it and which the people of Maury county should consider. We are far behind in our public school sysard kirk speaks of going to Texas during Christmas week which is said to be a true sign of a good fruit year.

We notice an article in last weeks Herald from John Moore, Jr., addressed to the patrons and school directors of public schools, which has the proper ring about it and which the people of Maury county should consider. We are far behind in our public school system, and it is high time for the people to awake from their lethargy and endeavor to improve their system of public instruction, remembering that the future of our country depends on the young men. Our friend Moore has given some timely suggestions and we hope he will continue to write on this subject until he arouses the masses to clamor for iewer schools, better teachers and of longer duration; that is the

But why, has your color fled?"
But the farmer fell with a sickening thud—
The farmer man was dead!
